

# **MOON ON HAVANA**

## **1. The Way We Are**

With these arms I will love you  
With these lips I'll taste your heart  
With these cries and moans of love  
That's the way we are

Bless the days we're together  
And the days when we're apart  
And the joy in our surrender  
To the way we are

I know love's revelation  
When it's easy or when it's hard  
And that love is our salvation  
That's the way we are

## **2. Foolish Heart**

Take the ring from my finger  
And the weight off my shoulder  
Do not bother to linger  
Or deny that it's over  
Cover my eyes  
Cover these memories of love  
Cover my foolish heart

Take the blanket from my bed  
And the lie I let go by  
All the mean things that were said  
Take them down for the last time

Cover my eyes  
Cover these memories of love  
Cover my foolish heart

Under a falling sky  
I tell myself it's not too late  
Before the sun I cry  
This is not my fate  
This is not my fate

So I promise to myself  
There'll be bouquets of flowers  
And the sadness that I felt  
Will be lost to the hours  
Cover my eyes  
Cover these memories of love  
Cover my foolish heart

### **3. In The Blue Light**

In the blue light after midnight  
Makes a melody sometimes  
If you go there I will be there  
In the music of the night

And when the darkness rolls  
Well it moves me and it grooves me  
And I bare my soul  
To the stories and the glories we share  
In the blue light

Take a fast train through the blue rain  
Through the colors of the night  
Friends and lovers with each other  
Making music in the night

And when the darkness rolls  
Well it moves me and it grooves me  
And I bare my soul  
To the stories and the glories we share  
In the blue light

Caught up in our conversation  
All our dreams and expectation  
But all we want to do is get it right  
So we take it to the boardwalk  
And we talk in the blue light  
The passion and the fashion we share  
In the blue light

#### **4. Moon On Havana**

Sky and sea  
Around my lonely bed  
Surround my lonely bed  
Cradle me, cradle me  
In my silky thread

I saw the moon rise on Havana  
In a black velvet sky  
I can hardly reason  
So I won't try  
But I warned you baby  
From the start  
Open up your heart

If I could stay right here forever  
Would I miss my own home  
Taking on my stormy weather  
All on my own

Island woman  
Havana man  
Love will understand

Find your freedom  
Find your love song  
Find someplace of happiness  
To carry you along  
Find your lover  
Someone who's strong  
When he gives you all his tenderness  
That's where you belong

Take the winding road  
The Malecón by the coast  
Where the ospreys fly  
Over the mangroves  
High above the hill  
See them climb higher still  
Hear them cry  
Goodbye

I went to sleep to old-time music  
Let the words flow over me  
Are we gonna be together  
Or remain free  
Island woman  
Havana man  
Love will understand

Find your freedom  
Find your love song  
Find someplace of happiness  
To carry you along  
Find your lover  
Someone who's strong  
When he gives you all his tenderness  
That's where you belong

Under the moon on Havana

## 5. Rhythm Of Your Love

Isn't that the way it goes  
When you never thought it would  
Letting go those same old foes  
When you never thought you could  
Rolling out like waves of gold  
I can feel my heart unfold  
In the rhythm of your love  
In the rhythm of your love

What am I supposed to do  
When you're always on my mind  
Look at you afraid to lose  
How could I have been so blind  
Take me now into your arms  
I'm defenseless to your charms  
In the rhythm of your love  
In the rhythm of your love

Crazy now for loving you so strong  
Crazy now for loving you so long  
There's a woman in me  
You're gonna see

Take me nice and take me slow  
Take it in your stride  
If you ask I'll tell you so  
It was always there inside  
Tender in the morning light  
Tender as you feel tonight

In the rhythm of your love  
In the rhythm of your love

The moon is up  
Turn down the light  
I'm so glad you're here tonight  
In the rhythm of your love  
In the rhythm of your love

## 6. My Country

There are times of trouble, times of peace  
Times you want to share with me  
Time for freedom, time of need  
In the times of my country

Out on the highway a loaded gun  
Carried by some mother's son  
Raise up the children from their dreams  
And keep them safe in my country

I travel the world  
With the heart of a girl

If you go to the city go with me  
We can share our destiny  
And those time-forgotten memories  
Down the roads of my country

Sign on the prairie in the sun  
Says each of us must overcome  
And I say to the Mother comfort me  
In the thunder and the lightning  
Yes, I say to my mother comfort me  
In my own insecurity

Yes, I say to my mother comfort me  
In the times of my country

## 7. Nashville Can Wait

Woke up in Louisville way past noon  
I swear the storm you talk about blew through  
Open the window of this old hotel  
And watch all the snow  
That fell last night just melt

It ain't right to leave here this way  
Turn the clock back one more day  
Take some time, darlin'  
Cause it's too good to waste  
Turn the clock back  
Nashville can wait

Woke up in Louisville to your sweet touch  
I never wanted anything so much  
Open the window to that river view  
It's such a pleasure  
Being here with you

It ain't right to leave here this way  
Turn the clock back one more day  
Take some time, darlin'  
Cause it's too good to waste  
Turn the clock back  
Nashville can wait

Woke up in Louisville to boats and trains  
True to the heart and soul of you I'll remain  
Open the window I hear music out there  
We can climb to the rooftop

And hear it everywhere

It ain't right to leave here this way  
Turn the clock back one more day  
Take some time, darlin'  
Cause it's too good to waste  
Turn the clock back  
Nashville can wait

## 8. Camden Town

I took a walk to Camden Town  
To the marketplace  
Dust of ages, ancient ground  
Ghosted alleyways  
Funky boots and silver rings  
Crystal beads and lace  
You can find some magic things  
In the marketplace

All I want is you but I'm a long way  
From that foreign moon  
And the landscape  
I see every move that you make  
Sleeping in your room so far away  
From this marketplace

The mornin' sun it feels so good  
In the open air  
Cigarettes and sandalwood  
Rising everywhere  
Painted birds and angel wings  
For the holidays  
You can have your velvet dream  
In the marketplace

All I want is you but I'm a long way  
From that foreign moon  
And the landscape  
I see every move that you make  
Sleeping in your room  
When it's daybreak here  
In this marketplace

I wish you were here with me  
On this gypsy stage  
Retro music in the street  
Leather on parade  
For there's treasure to be found  
It's an old crusade  
Scattered from its faded crown  
Through the marketplace

## **9. If You Were Here Tonight**

If you were here tonight  
I'd hold you close to me  
I'd keep you safe  
And I'd keep you company  
Cause suddenly it's clear to me  
Just how much you mean to me  
I can see us loving in our time

Let the past just fade away  
So we can be in love today  
How I wish that you were here tonight

We'll play beneath the sun  
We'll make the perfect pair  
For we have just begun

To really care  
And all the joy that we will bring  
To each other everything  
I can see us loving in our time

Tell my friends and family  
There is no place I'd rather be  
Some say love's a mystery  
But I know what you've done to me  
How I wish that you were here tonight

## 10. The Fall

Late at night  
Fast asleep  
I did dream that you were me  
And as I knelt there  
In sight of it all  
There was a stillness  
And black blessed fall  
Into light

Late at night  
In the dark  
I believed with all my heart  
And as I knelt there  
In sight of it all  
There was a stillness  
And black blessed fall  
Into light

Late at night  
Every door  
Opened unto stars before  
And as I knelt there  
In sight of it all

There was a stillness  
And black blessed fall  
Into light
